### Work Experience

#### Full Stack Developer — FeOS Technology, Chennai

Oct 2023 – Jan 2025

- Built **Matrimony Web App** with advanced search filters, secure authentication, and real-time chat, improving user engagement by 30%
- Developed **Warranty Registration System** with brand-based dynamic forms and automated notifications, reducing manual errors by 40%
- Created **Employee Management System** with role-based dashboards, enhancing HR team efficiency in managing employee data
- Designed mobile UI prototypes in **Figma** and collaborated with the design team to improve usability before development
- Developed REST APIs with **Express.js** and **JWT authentication**, ensuring secure data exchange and role-based access control
- Managed **MongoDB schema design**, optimized queries, and ensured scalability for large datasets
- Participated in **Agile sprints**, code reviews, and pair programming sessions, contributing to faster release cycles and better code quality
- Collaborated with QA team to identify bugs, write unit tests, and improve application stability

## Freelance Projects — UI/Poster Designer (Part-Time, Ongoing)

- Designed posters, presentations, and landing pages
- Created UI mockups for small businesses

## Education

B.Sc. Mathematics — Mazharul Uloom Arts and Science College, Ambur  
Thiruvalluvar University

## Certifications & Training

- Web Designing Course – Sadapet, Chennai
- ServiceNow Training (User Administration) – FeOS Technology

## Workshops

**Microsoft Office Workshop** – Mazharul Uloom College, Feb 2022 – Mar 2022

- Completed an intensive workshop on Microsoft Office, gaining proficiency in Word, Excel, and PowerPoint.
- Acquired document creation, data analysis, and presentation design skills, improving productivity and efficiency by 20% in professional tasks.

## Soft Skills

Problem Solving | Team Collaboration | Time Management | Empathy

## Key Projects

### Warranty Registration System

A secure API-driven platform for product warranty registration with brand-specific forms.

- Built dynamic forms that adapt based on product brand, improving user experience
- Integrated **Express.js REST APIs** with **JWT authentication** for secure data flow
- Designed MongoDB schema to handle large volumes of warranty records
- Reduced manual errors and improved registration efficiency by 40%

### Matrimony Mobile App

A mobile application designed for scalable matrimonial services with real-time features.

- Developed using **React Native** and **Tailwind CSS** for cross-platform responsive UI
- Implemented **real-time chat** and advanced search filters for seamless user interaction
- Designed intuitive UI screens in Figma before development for better user flow
- Optimized app performance, reducing load times and improving engagement
